BOYLE FARM SOLD.

S T Kimbell of the Kimbell land agency closed up the largest sale of the year in selling the Boyle farm of 3500 acres for Oscar Peterson to Judge C A Bales of Jefferson county.

This famous plantation has had an interesting history. It was founded by Lord Montgomery Boyle of London, England, who invested largely in this county, in the early '80s, together with the English investors who founded the Rugby settlement.

Lord Boyle invested over \$50,000 in this plantation which years ago was one of the show places of the county. He would make yearly visits from his English estate with a large party of guests and spend several months here, hunting and fishing and other pastimes. Advancing years compelled him to sell this magnificent estate to Anton Stefanowicz, who had a dream of a large English settlement at this point. He became involved with a prominent Catholic Priest in the project, resulting in long litigation, and the dream faded in the gloaming. The estate changing hands several times down to the present owner.

No finer location could be found for a stock ranch and fruit farm, large buildings, fenced fields throughout, the plantation forms the nucleus for such enterprises, and no doubt the new owners who are prominent in the stock and fruit business in Jefferson county will take advantage of that fact.

Morgan county welcomes such enterprises, which means much to the welfare of her citizens, and when this enterprise starts it will mean the third fruit orchard on an extensive scale near Deer Lodge and Sunbright.
